Introduction

To the Student

Themes is a series of textbooks designed for students studying English as a first foreign language. This is the second book for the Secondary Cycle, Second Year, according to the new National Curriculum.

The aim of the Workbook is mainly to provide practice in the language. More specifically, the objective is to provide reinforcement for the skills introduced in the Student's Book as well as to give further practice on certain language and literary items in writing, reading, and listening comprehension that may or may not have appeared in the Student's Book. The Workbook provides the students with exercises corresponding to each lesson in the Student's Book. Although the Workbook can be used independently of the Student's Book, the best results are obtained when both are used together.

The exercises in this Workbook are to be done either in class or at home depending upon the teacher's directives. A table of contents has been included which corresponds to the Student's Book with the omission of the project presentations and unit assessments. References to the language and/or literary foci that correspond to the Student's Book have also been included.

The authors believe that the Workbook is in no way exhaustive but only suggestive of how students can further their practical application in learning the language.

The Authors

CONTENTS

PART I: IMPRINTS

Themes	Title of Lesson	Page
--------	-----------------	------

UNIT 1

PEOPLE: Life and Work	L1	Mahatma Gandhi	10
	L2	Christopher Columbus	12
